

Mountain Birdwatch 2.0

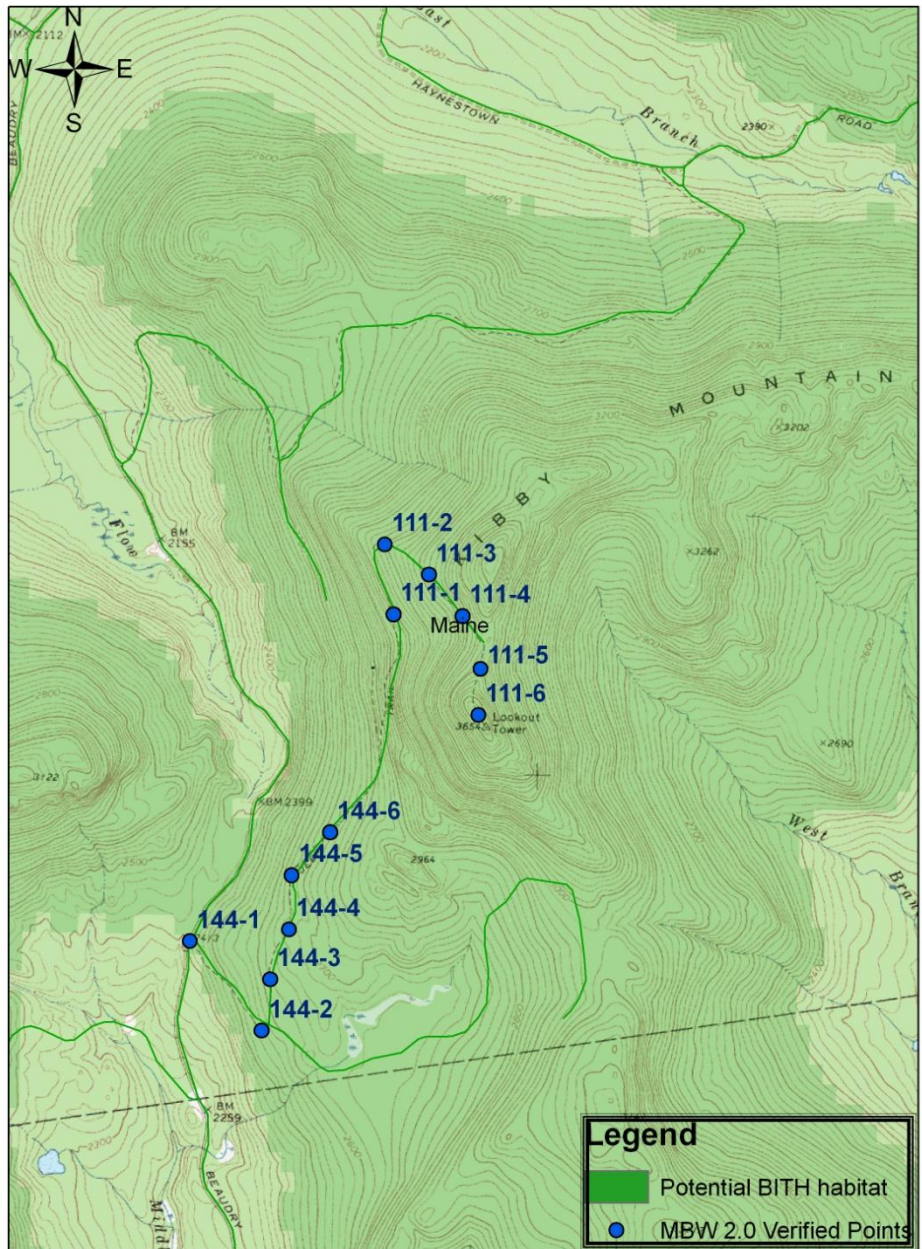

Route 111: Kibby Mt., ME

Hike Duration/Difficulty: 1 hr.

Route/Trail Access: From Route 201, take Spencer Road (unpaved) about 27 miles west to Beaudry Road. (Google maps confusingly labels Spencer as Hardscrabble Road along its eastern half and Appleton Road along its western half, while Beaudry is referred to as Goldbrook Road.) A Maine Atlas and a car Garmin unit will help – road junctions are not always marked with road names. Be careful of logging trucks – they have right of way and will take it! Take Beaudry 5 miles south to Kibby Mountain Road. Drive uphill about 250m to a small parking area and a junction with an ATV trail that leads up Kibby Mountain. Follow this trail uphill until it becomes a footpath. Stay to the right at the only trail junction.
