

Mountain Birdwatch 2.0

Route 144: Kibby South, ME

Hike Duration/Difficulty: 0-1 hr.

Route/Trail Access: From Route 201, take Spencer Road (unpaved) about 27 miles west to Beaudry Road. (Google maps confusingly labels Spencer as Hardscrabble Road along its eastern half and Appleton Road along its western half, while Beaudry is referred to as Goldbrook Road.) A Maine Atlas and a car Garmin unit will help – road junctions are not always labeled with road names. Be careful of logging trucks – they have right of way and will take it! Take Beaudry 5 miles south to Kibby Mountain Road. Drive uphill about 250m to a small parking area and a junction with an ATV trail that leads up Kibby Mountain. This is point 2 – point 1 is at Kibby Mountain Road & Beaudry Road, but it's best to park uphill to be out of the way of fast-moving logging vehicles. Revised 11/2012
