

Mountain Birdwatch 2.0

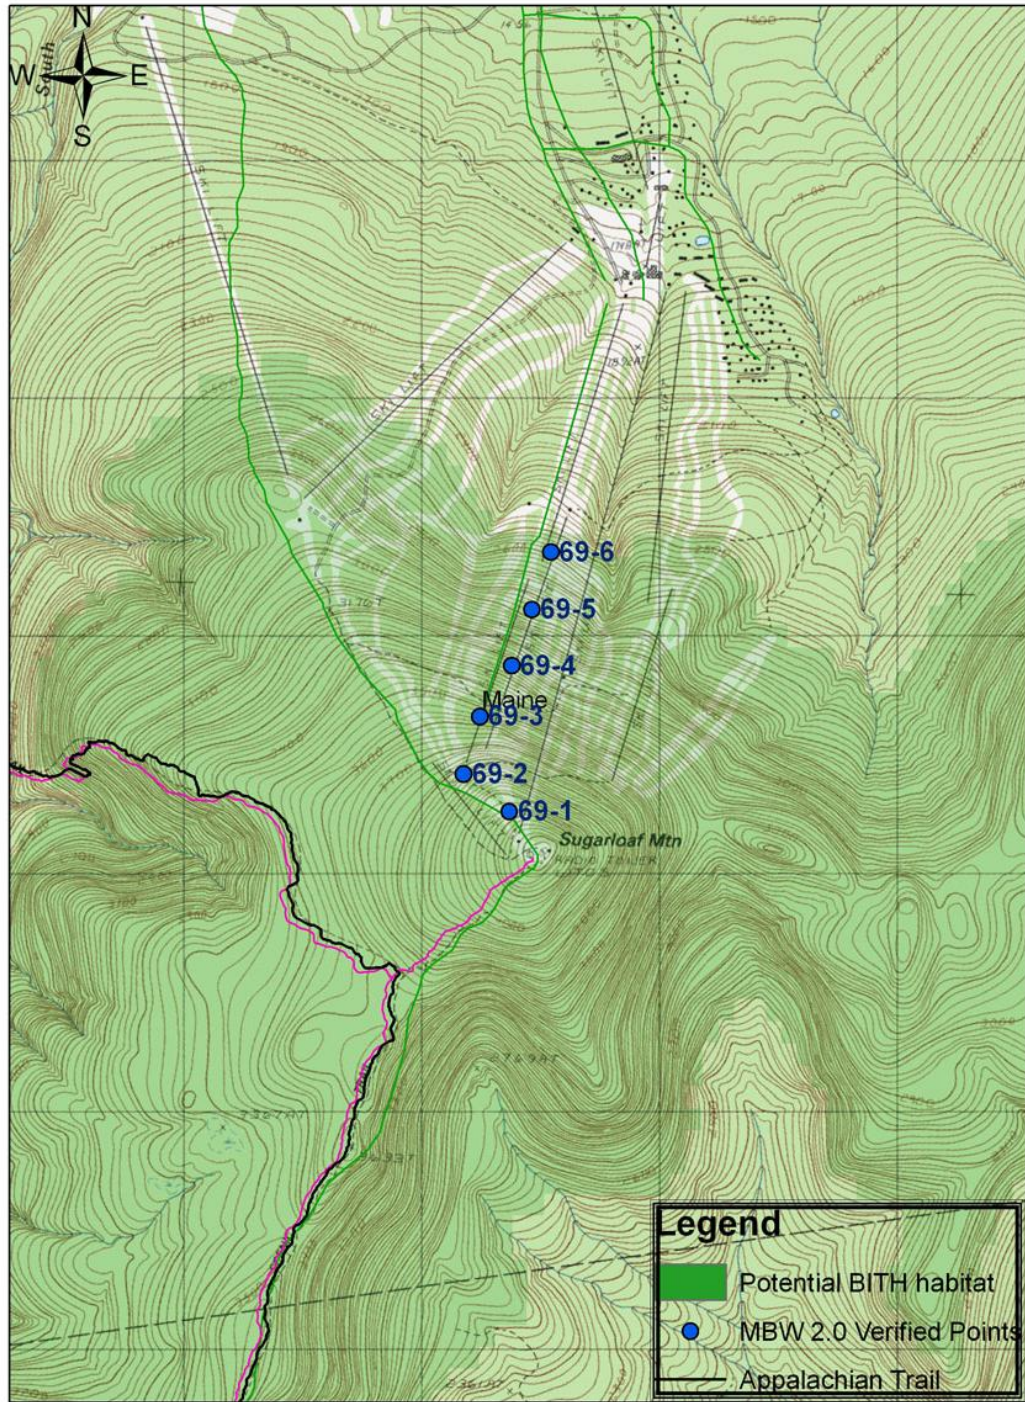

Route 69: Sugarloaf, ME

Hike Duration/Difficulty: 2 hours, strenuous.

Route/Trail Access: Off of Highway 27, turn into main entrance to Sugarloaf Mountain. Head up to main lodge and park. There are alternatives of where to park and begin, ask at desk. Head up main slope, Spillway East and West, then up T-bar slope, then up Winter's Way to 69-1, just below the summit. Note that Spillway will be called Skyline starting in the '12-'13 ski season. Signs are currently being changed (summer 2012). **Camping:** There is a ski patrol hut close to Point 2, and a 3-sided shelter on the south side of the summit- potential camping option. See the staff at the hotel check-in desk.

They know about our project and can be very helpful. Revised 9/2013
