

Vermont Bird Checklist

Vermont Bird Records Committee

www.vtecostudies.org/vbrc/

Last updated 29 October 2020

This checklist includes all species for which acceptable specimen, photographic, or written documentation exists for Vermont. The list has been approved by the Vermont Bird Records Committee and includes 388 species representing 22 orders and 63 families of birds. The names of the birds and their taxonomic arrangement follow the American Ornithological Society Checklist of North American Birds Seventh Edition (1998), 61st supplement (June 2020).

STATUS

- E** Extirpated - no longer occurs in Vermont but is not extinct
- H** Hypothetical - single records that lack photo documentation or second party confirmation
- I** Introduced
- X** Extinct – once occurred in Vermont and is now extinct

BREEDING

- * Species known to breed or to have bred in Vermont

OCURRENCE

Dates of occurrence are median arrival and departure dates and are indicated by numbers for months and by A, B, C, or D for weeks of the month. For example, 3C indicates presence in the third week of March. A plus sign (+) indicates species for which individuals are periodically encountered far outside their normal occurrence dates.

REPORTING

This checklist is based upon more than a century of documented observations. Reports that will expand this knowledge base are encouraged and appreciated. A documentation form can be found on the Vermont Bird Records Committee's web site listed above. Remember to carefully distinguish your bird from all similar, more common species. Photographs are not necessary but are particularly useful.

Please submit documentation for:

- Any species not listed on this checklist, or
- Any species confirmed nesting which does not have an asterisk (*) after its name, or
- Any species observed more than one month outside its occurrence dates (regardless of location) which does not have a plus sign (+) after its dates, or
- Any species with the following codes (regardless of date):

- B** Please submit documentation if this species is observed outside the Burlington area.
- C** Please submit documentation if this species is observed outside the Lake Champlain Basin.
- K** Please submit documentation if this species is observed outside the Northeast Highlands (Northeast Kingdom).
- N** Please submit documentation if this species is confirmed nesting.
- V** Please submit documentation if this species is observed anywhere within Vermont.
