

2021 BOBOLINK NESTING CALENDAR

NH AUDUBON nhaudubon.org VERMONT & NEW HAMPSHIRE VERMONT STATE WILDLIFE vtfishandwildlife.com

MAY

						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23/30	24/31	25	26	27	28	29

Male birds establish territories.

Females arrive and mate pairing begins.

Nest building and egg laying begins.

JUNE

		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30			

MAIN NESTING PERIOD:
Females are incubating eggs and both parents are feeding nestlings.

JULY

				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

Nests are fledging young who are incapable of flight for up to 10 days.

Most young have fledged and are more able to escape mowing with each passing day.
