JUNE

			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30		

MAIN NESTING PERIOD:

Females are incubating eggs and both parents are feeding nestlings.

JULY

					1	2
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30/31

Nests are fledging young who are incapable of flight for up to 10 days.

Most young have fledged and are more able to escape mowing with each passing day.
