

## **JOB POSTING**

Staff Biologist – Friendly workplace, flexible hours, and generous paid time off

The [Vermont Center for Ecostudies](#) (VCE) seeks an enthusiastic and versatile Staff Biologist who can work effectively both individually and as part of a team. The successful applicant will add field data collection and lab sample processing capacity to several VCE projects and work closely with VCE's science team. Key qualifications include experience monitoring biodiversity, diverse set of identification skills, proficiency in Microsoft products and strong written and verbal communication skills.

## **Our Organization**

The Vermont Center for Ecostudies promotes wildlife conservation in New England and across the Americas through scientific research and community engagement. Our scientists and volunteers gather essential information to guide habitat stewardship. We work with many partners, primarily in New England, Canada, and the Caribbean, where some of the Northeast's migratory birds overwinter. We are committed to creating a workplace culture that respects and celebrates diversity and values the wellbeing of all employees. We accomplish this by offering flexibility within the workday to help foster a healthy work-life balance.

## **Position Summary**

The Staff Biologist supports the data collection needs of VCE's science team. This position will work closely with staff scientists to reliably collect consistent field data following specific methodology related to a number of projects. We seek an individual who can share their enthusiasm for natural history with a wide audience through project related outreach and communications. With support from the Director of Conservation Science, the Staff Biologist will collaborate with VCE partners to provide support on joint initiatives. The Staff Biologist is expected to work closely with VCE's science team on a variety of projects including [Backyard Ticks](#), [Roadside Bumble Bee surveys](#), [Plant Pollinator Interactions](#) and [Whip-poor-will surveys](#).

## **Terms**

The Staff Biologist works out of our office located in the vibrant community of White River Junction, across the river from Dartmouth College. This is a full-time position with a salary range of \$40,000- \$50,000, depending on experience. VCE offers health, dental, vision, and retirement benefits plus 30 days of paid time off per year

## **Application Procedure**

Please send a cover letter, resume, a one page statement highlighting your experience monitoring biodiversity and conducting both field and lab work as PDF attachments to Dr. Ryan Rebozo (rrebozo [at] vtecostudies.org) with "VCE\_Biologist\_Application" in the subject line. Application review will begin on April 1, 2024 and continue until the position is filled.

All qualified applicants will receive consideration for employment without regard to race, color, religion, ancestry, national origin, sex, sexual orientation, gender identity, place of birth, crime victim status, disability, or protected veteran status. We are committed to achieving an equitable work environment and wish to connect with a diverse pool of candidates in this search.
